QUALIFICATIONS

- Solid foundational knowledge of designing and developing full-stack web applications using .NET framework.
- Coordination — Was responsible for being the foreman of crews at the railroad, and ran the shifts at fast-food. Assembled switch lists for cars within the yard.
- Monitoring — Had to keep close eye on the train and tracks for any debris, people, animals, vehicles, etc that might be on the rails or if something was wrong with the train.
- Critical Thinking — Had limited time to come to a conclusion on projects and was responsible for being the foreman of trains worth tens, sometimes hundreds of millions of dollars.
- Active Listening — At the railroad I was always on call, and had 2 hours notice to be at work from the time of receiving the phone call. Spoke to the dispatcher, and other management officials and always had to keep ears open for when they call you over the radio even if you are preoccupied with a task.

TECHNICAL SKILLS

Front End: HTML5, JavaScript, jQuery, jQueryUI, CSS3, Responsive/Mobile Web Development, Bootstrap

Middle Tier: Visual Studio, C#.NET, ASP.NET, LINQ, MVC, EF

Back End: ADO.NET, SQL, SQL Server, SSMSE

INDEPENDENT DEVELOPMENT PROJECTS

- **Personal Site:** www.devonplackard.com
- **U Store:** Created a secure application for managing product data. Application is built to simulate an online store front with a shopping cart. Administrators have the ability to manage product, category and vendor data.
- **Final Project:** Created a secure data-driven ASP.NET MVC application from design through deployment for managing the tracking and organization of hardware and software within a company. Administrators have the ability to manage employee, department data and all details relating to assigned hardware and software.
